

Gill
Harler
Fund

Raising Awareness of the Symptoms of Ovarian Cancer

May include but not restricted to:

A

A persistent bloating
Abdominal, pelvic or lower back pain
A difficulty eating/feeling full quickly
Abdominal swelling
Abnormal bleeding
An urgent, more frequent need to urinate
A change in bowel habits

C

Consistent symptoms that don't go away
Concern - this is NOT normal for you

T

Time to talk
Tell your GP
This could save your life

NOW

Patron of the Gill Harler Fund

**A smear test CANNOT detect Ovarian
Cancer... symptom awareness CAN.**
